

Do you know our snow responsibility code?

Please follow it while on mountain.

Limit your speed in busy areas

Match your speed to surrounding skiers and riders

Be prepared for others to make sudden changes in direction or speed

Stay 5m from others

If less than 5m from others you must slow down

The faster you go the more space you must give others

Give way to those downhill

Look before you leap

Snowboarders: take care turning onto your heel edge

Only stop where you can be seen from above

Always look uphill before moving again

Only stop on the edge of trails or beside fixed objects
