

Film and drone permit

To film, fly drones or shoot imagery for commercial or media purposes at Coronet Peak ski area you need to obtain permission from the Ski Area Manager and the Department of Conservation (DoC). We also charge a site fee of \$1290 per day (See below for rates for additional services.)

You will need provisional permission from our Ski Area Manager before applying for the DoC permit. Please fill out the application form below and send it to admin@coronetpeak.co.nz.

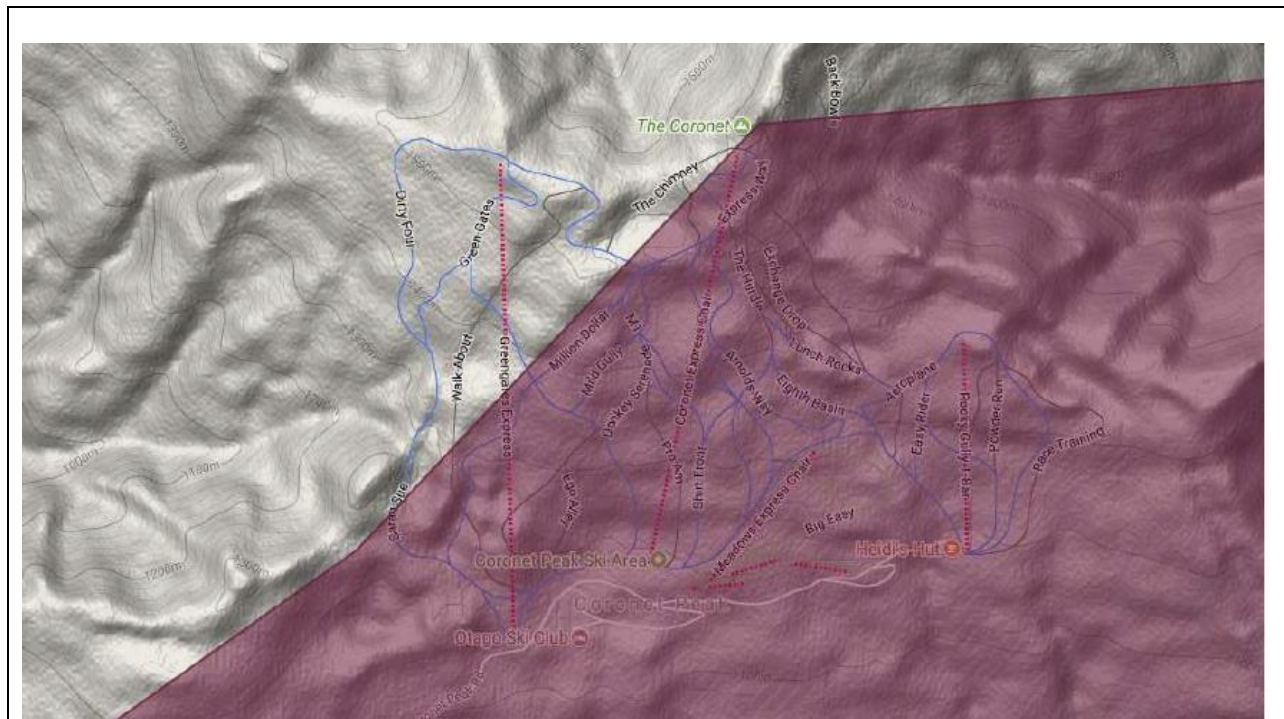

Once you have provisional permission from us you can apply for the DoC permit. To do this please [contact them directly](#). You can let DoC know we have provisionally granted approval to film or shoot at the ski area pending their permission. Please note DoC do not allow the recreational use of drones at Coronet Peak.

If you plan on flying a drone in the red shaded area on the map below you must [register with Airshare](#) as it is controlled airspace.

Once you have your DoC permit, please email it to us for final sign off from the Ski Area Manager.

In short - steps for filming, shooting imagery or flying a drone at Coronet Peak:

1. Gain provisional permission from the ski area manager
2. Gain a film permit from DoC which can include the use of a drone
3. Gain final sign off from the ski area manager

Conditions for filming at Coronet Peak Ski Area:

- You must have obtained a permit from both DOC and Coronet Peak ski area
- You must have a H&S induction with the admin team prior to your shoot
- Be courteous of other ski area users and not interfere with their experience on mountain
- If you are filming any of our staff you must ask their permission and obtain a signed talent release form from them
- At all times take all practicable steps to minimise hazards to people and property

Conditions for flying a drone at Coronet Peak Ski Area:

- You must have obtained a permit from both DOC and The Remarkables ski area
- You must abide by the Civil Aviation Authority (CAA) rules for unmanned aircraft
- You must register with Airshare at least 48 hours in advance if you plan on flying in controlled airspace
- You must have a H&S induction with the admin team prior to your shoot
- Fly only in daylight
- Maintain direct visual contact at all times (ie not through a smartphone or a monitor)
- Not fly higher than 120m/400ft above ground level and regardless of height above ground do not fly any higher than the summit of Coronet Peak
- Give way to all crewed aircraft
- Designated take-off and landing areas must be at least 20m away from ski runs, equipment or people.
- Do not fly over the top of chairlifts, conveyors or buildings
- Do not fly within 50 metres of a chairlift line
- Please notify Coronet Peak admin team of your intended take off and fly time
- Land immediately if you see a helicopter approaching as this could be arriving for a medical rescue
- Comply with all instructions from any Coronet Peak staff while operating within the ski area
